# SENA MARINE SUPPLIES

## ➤ Automation & Navigation Spares:

We supply high-quality new and refurbished spares for marine automation and navigational equipment, ensuring your vessel's systems operate seamlessly. Backed by seafaring expertise, we deliver precision engineered solutions for critical components, including rare and high-demand parts, with exceptional speed and reliability.

## ➤ Electrical Motors:

We offer a comprehensive range of high-quality motors designed for various marine applications, all backed by warranty.

### Motor Categories:

Marine Electric Motors, Explosion Proof Motors, Compact & High-Efficiency Motors, Three-Phase & Single-Phase Motors.

### Leading Brands We DEAL WITH:

ABB, PYTHON, VALLADIS, GAMAK, ATT, Marathon Motors.

## ➤ Essential Marine Components:

- Marine Valves
- Air Vents & Strainers
- Batteries & Chargers
- Gaskets & Mats
- Pressure Gauges & Transmitters

## ➤ Marine Pump Mechanical Seals:

We maintain an extensive stock of marine pump mechanical seals in standard sizes, compatible with all popular seal types. For specialized mechanical seals, our expert team can custom-manufacture high-precision, top-quality seals to your exact specifications. With a sample provided, we guarantee delivery within just 4-7 working days, ensuring minimal downtime.

## ➤ Marine Pump Spares:

We offer high-quality spare parts for Shin Shin, Taiko Kikai, and Naniwa marine pumps. Our Korean-sourced components ensure reliable performance and durability, maintaining the integrity of your marine systems.

## ➤ Marine Purifier Spares:

We offer genuine, high-quality spare parts for Alfa Laval, Mitsubishi, and Mitsubishi Samgong purifiers. Our Korean-sourced components are meticulously engineered for reliable performance and long-lasting durability, ensuring the integrity and efficiency of your marine systems. Additionally, we supply fully refurbished purifiers, complete with control panels, tailored to meet your operational needs.

## ➤ MAN Marine High-Speed Engine Spares:

Genuine spares directly sourced from Germany. Support for MAN engines ranging from 730 HP to 2,000 HP, including high-performance V-engines.

# SENA ENGG SERVICES

## ➤ Marine Automation & Navigation Solutions:

We specialize in servicing and troubleshooting marine automation systems and navigation equipment, ensuring vessels operate at peak efficiency and safety. Our expertise spans main engine controls, ballast water treatment, and critical systems like oil mist detection and fuel viscosity control. Additionally, we provide comprehensive support for radar, ECDIS, GMDSS, autopilots, and other navigation systems. Trust us to keep your vessel's automation and navigation systems operating seamlessly.

## ➤ Marine Electrical Services:

Our advanced electrical workshop is equipped to handle motor and alternator overhauls, rewinding, and switchgear maintenance. With capabilities for dynamic balancing, thermographic surveys, and ultrasonic cleaning, we ensure uninterrupted operations. Trust us to maintain your ship's electrical systems with high-quality craftsmanship and modern facilities.

## ➤ Vessel inspections:

We offer unbiased pre-purchase inspections, pre-charter assessments, and compliance checks to safeguard your maritime assets. With over 400 data points assessed by former Chief Engineers and Technical Superintendents, we provide clear, actionable insights to protect your investment and ensure regulatory compliance.

## WHY CHOOSE SENA?

- ◆ **Seafaring Expertise:** Our deep maritime background ensures we understand and resolve challenges effectively.
- ◆ **Comprehensive Services:** From automation to electrical and mechanical systems, we cover all aspects of marine operations.
- ◆ **Customer-Centric Approach:** We act as a trusted partner, delivering innovative, economical solutions tailored to your needs.
- ◆ **Unparalleled Support:** Available for timely on-site assistance to minimize downtime and maximize efficiency.

**For a seamless, efficient, sustainable marine operation,  
trust SENA Marine & SENA Engg—your reliable partners in maritime excellence.**
